New Features.
Same Compression.
Additional Stability.

NOW AVAILABLE IN:
10 mm x 26 cm
12 mm x 26 cm
10 mm x 30 cm
12 mm x 30 cm

- Accommodating to each patient’s unique anatomic needs
- Perfect as a bailout option when tibial fractures occur

ACTIVE COMPRESSION
Same pseudoelastic NiTiNOL Technology that allows for post-operative compression to be maintained for up to 6 mm of bone resorption.¹

ADDITIONAL STABILITY
Stress risers are reduced by inserting DynaNail XL further into the patient’s tibia.²
